# VENTURE.

This well-known Trotting Stallion is now standing at the corner of Punchbowl and Queen streets, and acceders, horsemen and stock-owners should take advantage of the opportunity to obtain his blood while they have the chance. He is now looking and feeling nearly as well as he ever did in his life, and moves as lively and his eye is as bright and he is as vigorous as a four-year-old horse

It does not require a great horseman to discover great points of excellence in VENTURE. The ordinary citizen, upon beholding him, will be impressed immediately with his grand make-up, magnificent length, and elegant finish. If he is not the greatest horse that ever came to this country, he is surely one of the greatest, and as a turf performer, he towers as far above them all as he does above a sucking colt in statue.

A great deal of importance has lately been attached to the value of a horse that is being kept for stock purposes, whether he is standard or not, and the President of the National Association of Trotting Horse Breeders in America strongly advises people not to patronic stallons that are not standard bred, and he also advises them to select one not only standard heed, but if possible one that is standard by his own performance, which is a public record of zigo, or better, and even more tian this by the performance of his get also. Now, if this rule was rigidly applied it would exclude all such great horses as Electioneer and he sires of Mand S. and Jay Kye See, etc., for while they have become greatly renowned by the performance of their get, they never were turf performers themselves.

Now, we will see, for curiosity, how near VENTURE comes to possessing these three qualifications, nely? Breeding, performances and performances of his get.

As to his own performances, he meets the requirements, having a public record of sizyld—at so being the His get are now just beginning to be appreciated in California, one of which (Vengcance) won a good race te lately in Sacramento, in straight heats, making a record of 3134, and is said to be able to trot close to size, en called upon to do so.

As to breeding, he is the peer of any horse on earth, and I don't except the great Hermit, who is the most opular stallior in England, and whose service fee is £300, he being the sire of three Derby winners.

With these facts before us, VENTURE looms up as one of the greatest horses, not only in this but in any other country, and the day is past when people will breed anything but the very best; and while the death of two such great horses as Boswell and Bazaar is greatly deplored by all true horsemen, still it is a great consolation that there is so good a horse as VENTURE to fill their place.

VENTURE is an aged horse, but he is one year younger than Dictator, who was sold only last year in Kentucky for \$25,000, on the strength of his being the sire of Jay Eye See. His sand fee is \$300. He is also ten years younger than Volunteer (sire of St. Julien), whose fee is \$500. All things taken into consideration, I cannot see why VENTURE is not as desirable a horse to breed from as any of them, or why he is not as worthy of the patronage of the public. Below I will give his pedigree, of which I invite a comparison with that of any other horse in the country; VENTURE, chesnut horse, 16 hands, foaled in 1864; sired by Belmont, he by American Boy, he by Sea Guil, he by imp. Expedition.
